

GET YOUR GREEN SPACE ON TRACK FOR A WILD SUMMER

with #NoMowMay

What is No Mow May?

Plantlife's annual call to lock up your lawnmowers and not mow your green spaces during May to let long grass and wild plants to grow naturally. Providing a much-needed boost for wild plants and wildlife throughout summer.

Why should I take part?

With over 23 million gardens in the UK, even the smallest grassy patches add up to a significant proportion of our land which, if managed properly, can deliver enormous gains for nature, communities and the climate.

How do I get involved?

It couldn't be simpler. This is why Plantlife is calling for everyone to get involved. Choose not to mow some, or all of your green space over the month of May. By cutting less and later you'll let wild plants get a head start on the summer, so just sit back and watch the flowers grow.
